PROFILE

Systems and infrastructure engineer with 10+ years of IT experience across corporate financial and legal environments. Operate hybrid Windows/Linux infrastructure, Azure and Microsoft 365, with a focus on security, identity and automation through PowerShell, Python and APIs. Specialize in Active Directory, Entra ID, operational troubleshooting and documented validation.

CORE SKILLS

Infrastructure: Windows Server, Linux, VMware, Hyper-V, Docker, Azure VMs, networking, Fortinet, Veeam.
Identity & Microsoft 365: Active Directory, Entra ID, GPO, DNS, Exchange Online, SharePoint, Teams, SCCM/MECM.
Security & automation: Defender, Wazuh, Purview/DLP, AppLocker/WDAC, PowerShell, Python, Bash, Microsoft Graph, REST APIs.

PROFESSIONAL EXPERIENCE

POM COBRANZAS | IT Infrastructure Engineer **February 2024 - Present**

Administer one site with 30 servers (12 Linux and 18 Windows Server), 48 PCs, 3 Microsoft 365 tenants and 2 Azure tenants. Design, modernize and operate hybrid infrastructure; build automation for operations and security.

- Migrated 187 secrets from KeePass to Azure Key Vault with RBAC checks, validation and reporting: zero errors and zero skipped items.
- Inventoried 600+ SharePoint sites using Microsoft Graph and PnP PowerShell; tested ownership and access changes in a controlled pilot.
- Automated weekly Wazuh reporting through Python/Bash, CSV/PDF generation, SharePoint and email via Microsoft Graph.
- Scaled Docker and Selenium query automation from 1 to 13 containers.
- Coordinated a server, network, telephony and workstation relocation within 15 days, with critical-service validation.
- Implemented Active Directory improvements and endpoint controls. Windows Server 2025 migration remains in planning; vulnerability and patch orchestration remains a pilot.

Zurcher Odio & Raven | Systems Administrator **April 2018 - December 2022**

Administered infrastructure for 150+ users, including Windows Server, Active Directory, Microsoft 365, Fortinet and LAN/WAN networks. Standardized deployment of 40+ workstations using WDS, renewed 22 printing devices and coordinated IT suppliers, procurement and support.

Grupo SEGA | IT Specialist **March 2016 - April 2018**

Provided infrastructure consulting and support for corporate and financial clients. Administered Windows/Linux servers, identity, networks, VPNs, backups and IP telephony; resolved incidents and maintained technical documentation.

Selected projects & credentials

Infrastructure, security and practical automation

Active Directory modernization

Implemented domain-controller improvements, replication and DNS validation, FSMO management, hybrid identity integration and security checks. Windows Server 2025 migration: planning.

Application control | AppLocker and WDAC

Implemented application-control policies through Group Policy, PowerShell and Microsoft Defender, including controlled exceptions and endpoint validation.

Information governance | Microsoft Purview and DLP

Implemented DLP, retention, sensitivity, auditing and eDiscovery controls across Microsoft 365, supported by PowerShell and Microsoft Graph.

Vulnerability and patch orchestration | pilot

Controlled pilot with selected endpoints: Defender/Wazuh findings, CVE/KB/device correlation, Action1 remediation, post-change validation and SharePoint evidence.

LexRAG Analytics | indexing and validation

Private document-retrieval work with RAG, OCR, Qdrant, FastAPI, Ollama and Docker. Current scope validates indexing, source retrieval and responses; statistical analysis is a planned extension.

Linux automation and recovery

Batch audio transcription with Python, Whisper and GPU resource controls. Additional work includes KVM/libvirt VM recovery, GLPI migration testing and secure file-exchange automation under validation.

MICROSOFT CERTIFICATIONS

- Cybersecurity Architect Expert
- Microsoft 365 Administrator Expert
- Azure Administrator Associate
- Security Operations Analyst Associate
- Identity and Access Administrator Associate
- Azure Security Engineer Associate
- Microsoft 365 Teams Administrator Associate
